**Steketee**

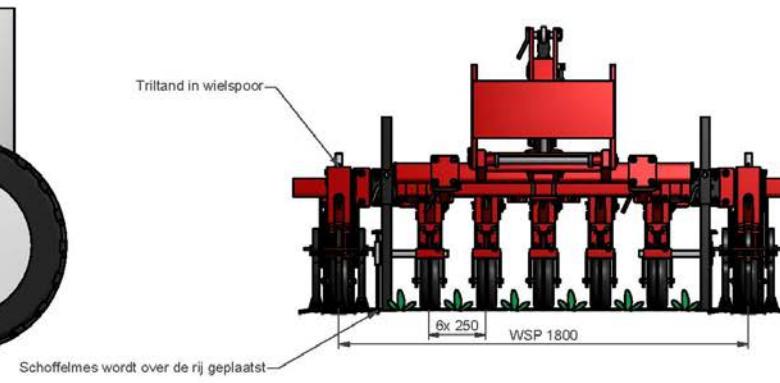

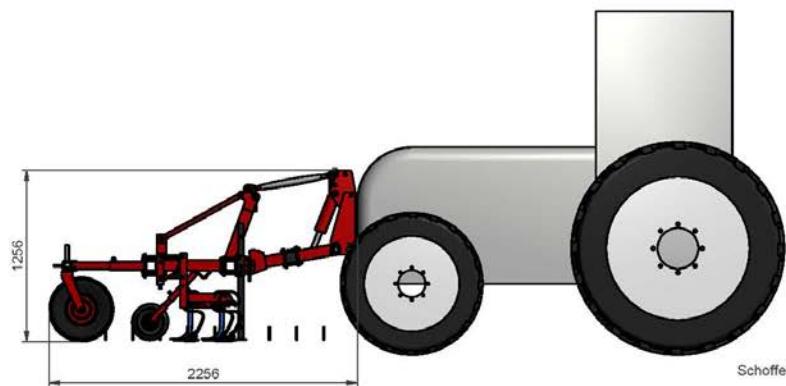

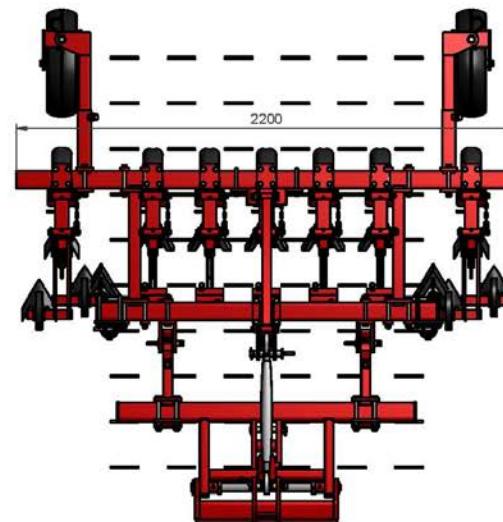

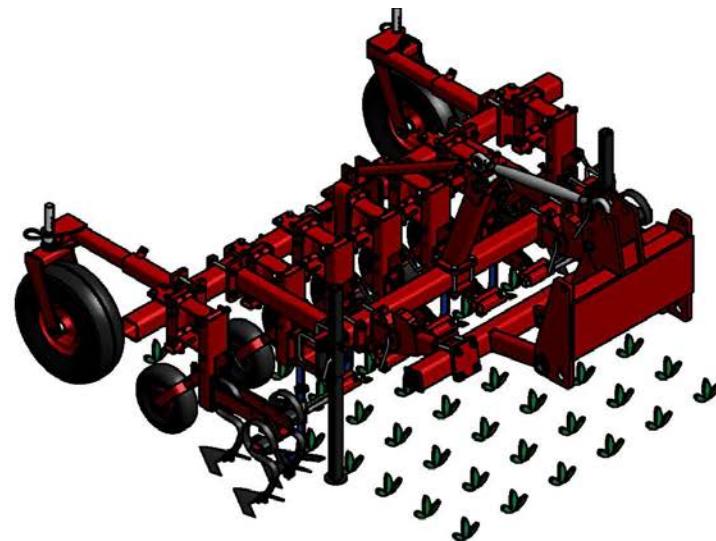

50 years of experience in weed control

Leonard Mol  
Machinefabriek Steketee BV  
The Netherlands

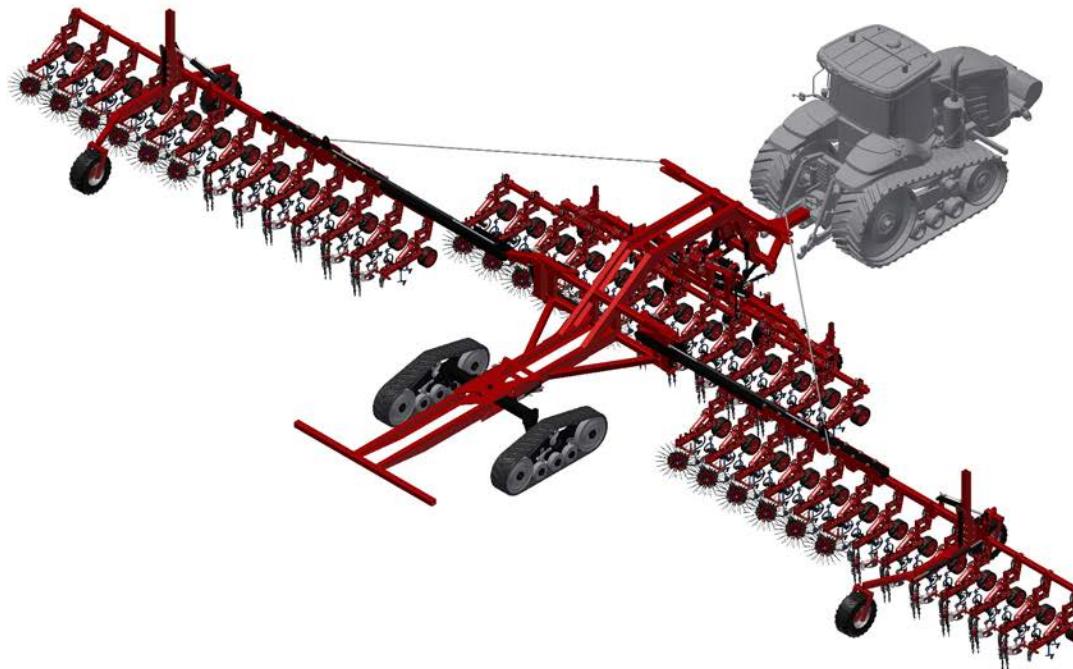

## Variety of Steketee

- 2 meter hoeingmachine

## Variety of Steketee

- 3 x 9 meter hoeingmachine
- Planted 9 meter

## Overview

- False seedbed?
- The importance of precise weeding
- Kind of hoeingmachines
- Steeringsystems
- Different options
- IC-Weeder (intrarow weeder)

## False seedbed

- Why a false seedbed?

[www.steketee.com](http://www.steketee.com)

**Steketee**

False seedbed

## Importance of precise hoeing

1 acre = 43560 sq feet

Row Distance 30 inches

17,330 feet of row per acre

Width hoeing elements work	% Not Cultivated	Sq feet not cultivated
22.8in	24	10454.4
24in	20	8712
25.2in	16	6969.6
26.4in	12	5227.2

## Importance of precise hoeing

1 acre = 43560 sq feet

Row Distance 15 inches

34660 feet of row per acre

Width of hoeing knife	% Not Cultivated	Sq feet not cultivated
11.4 in	24	21780
12 in	20	20691
12.6 in	26	19602
13.2 in	12	18396
